To:

Sabrina,
one more question on the web site; should Bill keep the historical docs and maps?

Subject: Re: Fw: Upper Cement Creek Draft FAQ and Web text

All,

I have created a draft Web page that includes all edits up through Dan's version below at: <http://wcmsprd-dev-staging4.epa.gov/region8/superfund/co/uppercement/>. It is currently on the "staging" server, which means it is not public. Sabrina mentioned that the photo of acid drainage from the Red and Bonita Mine currently on the Site Assessment home page (<http://www.epa.gov/region8/superfund/siteassess.html#2>) might be better suited to the Upper Cement Creek page. It would be easy enough to add it to the page or change one of the existing photos if any of you has an opinion one way or the other.

I would also like to call your attention to the maps listed in the Site Documents section. Sabrina sent me those early in this process, so I would like your buy-in, Mike, that they are appropriate for this discussion and potentially useful to the public. She also sent me a PowerPoint file containing 100 pages of river flow charts, as well as a couple of Excel spreadsheets of Animas sampling locations. I did not put these on the Web page.

Ditto the links I have added in the Link section. Would someone please confirm that these are appropriate/useful?

Once the text of the FAQ document is fairly final, I can create a proper fact sheet fairly quickly. Just say when.

Bill

Subject: Fw: Upper Cement Creek Draft FAQ and Web text

Mike,

I'm of the opinion that the sooner we get these FAQs up on the web and sent to Silverton the better. I've comment (a few times) as has Martin. A couple of rough spots remain but in general this is a pretty good document. I understand that OCPI can get this finalized and out quickly once they get final comments and the go ahead from EPR. I've also attached the latest draft of Martin's talking points document (with Ostrander's comments) for reference/consistency purposes. Cheers, Dan

Bill,

Morning. Martin Hestmark left additional FAQ comments on my desk. When you have an updated draft please send it over so I can incorporate his changes in redline.

David, if you want to give me a marked up copy as well I'd be happy to type them up.

Thanks,

Attached are some additional suggestions. Some are just wording/consistency suggestions (e.g. consistent use of NPL vs. Superfund vs. national priority list) but more importantly I've attempted to clarify the would community resistance be an NPL deal breaker FAQ.
